Educational Objectives

At the conclusion of this educational activity, participants will be able to:

- Evaluate various endourological techniques and their associated risks and benefits in managing complications.
- Differentiate between complications specific to open versus robotic surgical approaches.
- Recognize evidence-based management strategies to minimize patient morbidity.
- Identify signs of psychological distress in patients and healthcare professionals following surgical complications.
- Describe techniques and support systems to address the emotional needs of patients.

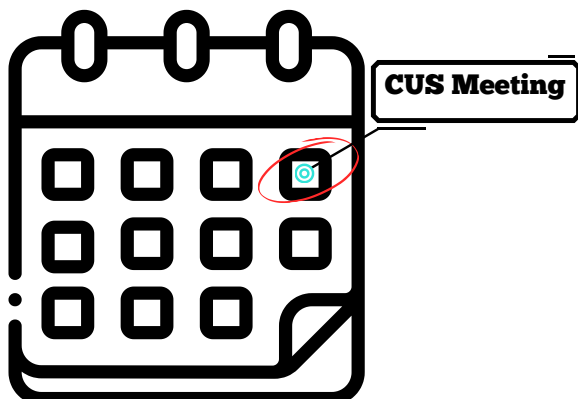

CME

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Illinois State Medical Society and Chicago Urological Society. Physicians should only claim credit commensurate with the extent of their participation in the activity

The Illinois State Medical Society designates this live activity for a maximum of **2.25 AMA PRA Category 1 Credits™**.
